PRESS RELEASE

22.09.2022

UzE-TechExpo 2022 – pilot exhibition of the electrical industry

The international market of the electrical industry is one of the dynamically developing segments of the international economy. Special attention is paid to this area in Uzbekistan, where measures are being taken to further improve the electrical industry. According to the Decree of the President of the Republic of Uzbekistan No. PP-5011 dated March 3, 2021 "On additional measures for the further development of the electrical industry and increasing the competitiveness of domestic products", the main priority tasks for improving the efficiency of the electrical industry for subsequent years have been identified.

This document became an incentive to launch the pilot project "Electronics, Electrical Engineering, Cable and Wire Products, Green Energy, Technologies and Production - UzE-TechExpo 2022".

Date and venue: September 28 – 30, 2022, Tashkent, Uzbekistan.

Over the past five years, \$465 million has been invested in the industry and 163 new projects have been launched. Production increased 4 times, exports - 3 times. At the same time, there are many untapped opportunities in the sphere, promising projects open for international cooperation.

The UzE-TechExpo 2022 platform will meet professionals who have decided to be on the same wavelength with the rapid changes that are taking place in the electrical industry of Uzbekistan.

The industry leaders, both Uzbek and foreign from Uzbekistan, Russia, Germany, Turkey, who prepare not only presentations, but also invite to partner in new projects, confirmed their participation.

Foreign participants make up 70% of the exposition, including: Toshiba Electronics Europe GmbH (Germany) Bastion, SegmentEnerg Cable Plant, PriST CJSC, REKO-VEK, TEKHELEKTRO (Russia), MERDAN ELEKT (Turkey), Techno Cable Group, Solar Nature, Sam-Ferre, Ekom.UZ (Uzbekistan).

A line of cable and wire products, electrical products, measuring instruments, a wide range of radio equipment for communication, auto electronics, solar panels and household appliances will be presented at the stands of the exhibitors of UzE-TechExpo 2022.

Major foreign manufacturers are planning to visit the exhibition, who are eager to find out the trends and volume of the market, hold negotiations and business meetings.

Organisers: Congresses of Central Asia - CCA and its partner International Exhibition company Iteca Exhibitions.
